

Introduction to Music Makers: at the Keyboard (from age 6)

Introduction to Music Makers: at the Keyboard (from age 6)

Intro to Keyboard is a set of five lesson plans that can be used in several different scenarios and is an excellent way to attract new families to the program without them having to commit the time and money of an entire semester.

The lessons can be taught as they are for a summer offering or can be expanded to a 3-hour camp experience by including several items from [Music Makers: Around the World](#) curriculum. You could also teach several 5-week sessions during the school year to attract new families to the program.

Please note that there is no repetition of the playing repertoire in *Intro to Keyboard* and [Music Makers: At the Keyboard](#) Year 1.
