

## Nature Trail: A Supplement to Cycle of Seasons Summer (Ages 4 and up)

*Nature Trail* is a supplement to our [Cycle of Season](#) Summer that provides material to amplify the nature encounter activities. When music and nature are brought together, young children have the opportunity to grow and develop into whole persons in an interactive environment.

The program enables you to offer children and families a one-week nature and music experience with the purpose of being in the natural environment, feeling comfortable in it and experiencing its mystery and wonder. It is perfect for a 5 day camp.

We recommend that children be at least 4 years old when starting the class. You will receive a teacher guide with immersion activities, lesson plans, *Summer* recording and outdoor exploration accessories.
