

Cycle of Seasons: Wind Dancer Lesson Activities, with commentary by Dr. Lorna Heyge.

Welcome to the *Wind Dancer* Commentary video series! This series was designed to support your teaching journey. Each video has an example of the activity, sometimes with children, but mostly without children. We all know that teaching is a practiced art and the better you know the activity before the children arrive the more prepared you will be to make an adjustment when the need arises.

Each video also provides commentary from Dr. Lorna Heyge, giving you helpful insights that keep you focused as a teacher and provide key parent education points.

For your ease, they are organized in Lesson order.

Happy Teaching!
